CORPORATE MEMBERSHIP POLICY

- 1. Corporate memberships are 2 player or 4 player. The 2 player allows for 2 players per day (18 holes including cart) on one tee time. The 4 player allows for four players per day (18 holes including cart). It is preferred that the corporate membership not be split into two different times.
 - In saying this a corporate is financially responsible if they go over their usage for the day and it must be paid within 60 days. If past due after 60 days, corporate playing privileges will be suspended until the account is up to date.
- 2. The Corporate Package consists of 2 bookers, who will be solely responsible for the bookings of a corporate tee time. No exceptions.
- 3. Corporate membership bookers will be allowed a 14-day advance booking privilege same as the rest of the membership.
- 4. Rounds may be used by any player but booker must enter the names of players/authorize who is using that corporate.
- 5. Tee times must be booked through an authorized booker or via the online tee sheet. Corporates used by others other than the authorized booker need to be called in at least 2 hours before the said tee time. We can't have people just walking in and saying that they are using a certain corporate without any knowledge from the pro shop staff.
- 6. Through online booking, login details can be shared by the owner/authorized bookers; in this way, any corporate membership has the ability to self-authorize as many individuals as they wish for online booking.
- 7. Includes 2 or 4 respective participants for League & Club Tournament play. It has to be the designated people on that corporate that will get the membership pricing for those events.
